

REALISTIC SYSTEM FLOW (HOW IT WILL ACTUALLY WORK)

1. SYSTEM SETUP (Day 1)

- Super Admin logs into the system
- Creates:
 - Store: *Classic Main Store*
 - Locations:
 - Location 1 (e.g. Kariakoo Block A)
 - Location 2
 - Location 3
- Adds users:
 - Store Keeper (assigned to store)
 - Shop Keeper 1 (Shop 1)
 - Shop Keeper 2 (Shop 2)

2. ADDING STOCK (REAL SCENARIO)

Morning delivery arrives from supplier

Store Keeper logs in:

- Goes to **“Add Stock”**
- Selects:
 - Category: Phone Protectors
 - Sub: 21D
 - Sub-sub: iPhone 11
 - Location: Location 1
- Enters:
 - Quantity: 500

System does:

- Saves stock under *Location 1 ONLY*
- Updates total inventory
- Product is now available for ordering

3. SHOP ORDER (STORE ORDER FLOW)

Morning: Shop 1 needs stock

Shop Keeper:

- Goes to **“Create Store Order”**
- Selects:
 - Product: iPhone 11 21D
 - Quantity: 50
- Submits order

Store Keeper sees:

- New order notification

Store Keeper:

- Checks stock availability
- Clicks:
 - Accept OR Reject

If ACCEPTED:

- System automatically:
 - Reduces stock (500 → 450)
 - Marks order as *Completed*

If REJECTED:

- Order marked as *Rejected*
- Shop Keeper is notified

4. BULK ORDER (REAL-LIFE FLOW)

Midday: Customer from another shop comes

Shop Keeper:

- Goes to **“Create Bulk Order”**
- Enters:
 - Order From: External Shop
 - Customer Name: "Ali Mobile"

- Product: iPhone 11 21D
- Quantity: 200

Now chooses source:

Option A — From Shop Stock

- Just keeps it as a number

Option B — From Store

- System sends request to Store Keeper

Store Keeper:

- Accepts → stock reduces in store
- Rejects → order stays pending or cancelled

PAYMENT STATUS (VERY IMPORTANT IN REAL LIFE)

After selling the bulk order :

Shop Keeper updates order:

- Paid
- Unpaid
- Incomplete

If incomplete:

- Enter:
 - Paid amount: 100,000
 - Remaining: 50,000

System tracks:

- Debt (important for business growth)

5. ADMIN DASHBOARD (WHERE THE MONEY IS)

Super Admin sees:

Reports:

- Daily sales
- Monthly sales
- Shop 1 vs Shop 2 performance
- Best selling products
- Low stock alerts

Monitoring:

- Who made orders
- Who approved
- Payment status (Paid / Unpaid / Incomplete)

6. LOW STOCK ALERT (REAL VALUE FEATURE)

If:

- iPhone 11 21D < 50 pieces

System automatically:

- Shows alert on dashboard
- “Low stock: Restock needed”
